REMARKS

The attached Notice of Drawing Inconsistency noted that Figure 12 was not mentioned in the Brief Description of the Drawings. Figure 12 is in the drawings and is described with regards to the embodiment 3 shown in Figures 11 and 12. More specifically, Figure 12 discloses an angular rod as described on Page 29, Lines 2-6 of the specification.

Accordingly, the Brief Description of the Drawings has been amended to be consistent with both the specification and the drawings. It is believed this does not add any new matter and simply resolves a typographical error in accordance with 37 CFR §1.312.

If there are any questions with regards to this request, the undersigned attorney would appreciate a telephone conference.

I hereby certify that this correspondence is being transmitted via facsimile to the USPTO at 571-273-8300 on February 23, 2006.

Very truly yours,

SNELL & WILMER L.L.P.
